Objective

Recent Stanford graduate seeking to join an ambitious UX team. Trained in Human-Computer Interaction (HCI), Design Thinking, and User-Centered Design. Leader and collaborator adept at balancing strategic thinking with meticulous execution.

Projects

Lotus – HCI Design Studio (Winter 2016)

Designed an app that integrates mindfulness into a user's day via a wearable device. Conducted interviews, led brainstorming, created and tested prototypes. *Selected as best project in the class.*

Performing Under Pressure – HCI Research (Fall 2017)

Created and tested a biofeedback system that promotes a positive interpretation of stress. *Selected as runner-up for best in the class.*

Hit Me Up – Understanding Users (Spring 2017)

Designed and tested an app that connects friends when free time overlaps. Conducted generative, usability, and field studies.

Experience

President – Stanford Jewish Student Assoc (March 2016 - March 2017)

Led a board of twelve students to triple community engagement. Orchestrated novel programs grounded in core student needs. Represented Jewish students in interviews, speeches, and op-eds. VP in 2015 and Shabbat Chair in 2014.

Production Assistant – MyShakespeare.com (August 2014)

Facilitated production of educational Romeo & Juliet videos.

Research Intern – Eldergadget.com (June 2010 - July 2010)

Evaluated device usability from the perspective of elderly users.

Education

Stanford University

Class of 2017
